Ontario Health Teams have been expanded to provide Aboriginal Health Access Centres. These centres will provide primary care and mental health services to Aboriginal communities. As of 2019-20, funding has been increased by $1.4 million to support these centres. Additionally, $3.8 million has been set aside to support the implementation of the Ontario Health Teams Act, which will provide additional primary care services to Aboriginal communities.
BACKGROUND

- The Ontario government is looking to make a $340 billion investment in public transit, which will be funded by a 10-year, $660 billion commitment.

- The Housing Supply Action Plan aims to introduce new supply through a variety of programs, including a $340 billion investment in GO Transit, with an average of $21 billion per year.

- The Yonge North Subway Extension, Etobicoke, and the GO Transit network will see an increase in service frequency and capacity.

- The Scarborough Subway Extension is scheduled to be completed by 2023.

- The Thunder Bay Regional Health Centre will receive an additional $340 billion investment, with plans to increase service capacity and frequency.

- The transit system is expected to see a 50% increase in ridership due to the new investments.

- The new investments will also result in a 50% increase in service frequency and a 20% increase in service capacity.

- The government is also committed to improving public transit access for people with disabilities.

- The new investments will also help to reduce greenhouse gas emissions by 50%.
