By Order in Council 2023-03-23

The Hon. Peter Bethlenfalvy, MPP, Minister of Economic Development and Innovation, announces: The Ontario government’s Economic Development and Innovation 2023 budget

"The Ontario government is delivering on its commitment to support small and medium-sized businesses, to create jobs, and to drive innovation. This budget builds on our success in creating a more competitive business environment and ensures that businesses have the support they need to thrive in today's global economy."

"The 2023 Federal Budget includes a Corporate Income Tax credit (CITC) that will be available to businesses in Ontario to help them recover from the impacts of the pandemic. The CITC will be available to businesses that have incurred losses in the 2023 taxation year and to businesses that have not filed a return in the past.

"The Ontario government is committed to supporting businesses and workers in our province. We are providing additional support for businesses through the Provincial Jobs Fund, which will help businesses create jobs and support economic recovery.

The 2023 budget includes a number of other initiatives to support businesses, including:

- The Ontario Jobs Fund, which will provide funding for business development and job creation programs.
- The Ontario Business Development Bank, which will provide financing to businesses of all sizes.
- The Ontario Small Business Support Program, which will provide financial assistance to small businesses.
- The Ontario Jobs & Skills Partnership, which will provide training and education opportunities for workers.
- The Ontario Economic Development and Innovation 2023 budget includes a Corporate Income Tax credit (CITC) that will be available to businesses in Ontario to help them recover from the impacts of the pandemic.

The 2023 budget also includes a number of other initiatives to support businesses, including:

- The Ontario Jobs Fund, which will provide funding for business development and job creation programs.
- The Ontario Business Development Bank, which will provide financing to businesses of all sizes.
- The Ontario Small Business Support Program, which will provide financial assistance to small businesses.
- The Ontario Jobs & Skills Partnership, which will provide training and education opportunities for workers.
- The Ontario Economic Development and Innovation 2023 budget includes a Corporate Income Tax credit (CITC) that will be available to businesses in Ontario to help them recover from the impacts of the pandemic.

The 2023 budget also includes a number of other initiatives to support businesses, including:

- The Ontario Business Development Bank, which will provide financing to businesses of all sizes.
- The Ontario Small Business Support Program, which will provide financial assistance to small businesses.
- The Ontario Jobs & Skills Partnership, which will provide training and education opportunities for workers.
- The Ontario Economic Development and Innovation 2023 budget includes a Corporate Income Tax credit (CITC) that will be available to businesses in Ontario to help them recover from the impacts of the pandemic.
• The Ontario Immigrant Nominee Program (OINP) provides opportunities for available and skilled workers, entrepreneurs, and international graduates to contribute to Ontario's economy. The program has three Streams: Skilled Worker Stream, Entrepreneur Stream, and International Graduate Stream. Each Stream has specific eligibility criteria and processing times.

  - Skilled Worker Stream: This Stream targets skilled workers who are qualified and have the potential to become employed in Ontario. Applicants must meet the minimum requirements in education, work experience, language proficiency, and health.
  - Entrepreneur Stream: This Stream targets entrepreneurs who are interested in establishing a business in Ontario. Applicants must have sufficient financial resources, business experience, and a feasible business plan.
  - International Graduate Stream: This Stream targets international graduates who have completed their studies in Ontario and are looking to settle and work in the province. Applicants must have a valid job offer and meet the English language proficiency requirements.

• The government of Ontario has announced an expansion of the Ontario Junior Exploration Program (OJEP) to support the exploration and development of critical minerals. The OJEP provides financial assistance to junior exploration companies to conduct exploration activities in strategic regions of the province. The program is designed to attract investment and create jobs in the mining industry.

  - Phase 1: Supports exploration activities from 2021 to 2022 totaling $100 million.
  - Phase 2: Supports exploration activities from 2023 to 2025 totaling $200 million.

• The government of Ontario has announced a new program, the Critical Minerals Strategy, to identify and promote the development of critical minerals in the province. The strategy aims to create a competitive and sustainable supply chain for critical minerals, which are essential for various industries such as automotive, electronics, and defense.

• The St. Thomas–Elgin region, located in southwestern Ontario, is home to the Volkswagen AG electric vehicle manufacturing plant. The plant is a major employer in the region and is expected to create thousands of jobs in the coming years.

• The government of Ontario has announced a new program, the Skills Development Fund (SDF), to support the development of skills in the province. The SDF provides funding to employers and training providers to develop skills and training programs in high-demand sectors.

  - Phase 1: Supports skills training from 2021 to 2022 totaling $100 million.
  - Phase 2: Supports skills training from 2023 to 2025 totaling $200 million.
