- Funding increases of $23 billion for the public sector, including education, health, and housing.
- Funding increases of $23 billion for the public sector, including education, health, and housing.
• The next 10 years will see significant transit – the 10-year transit agreement, for example, includes the Ottawa Light Rail Transit, the Waterfront Relief Line, and the London Bus Rapid Transit system. These projects will be supported by an additional $79 billion investment, helping to reduce congestion and make daily travel more convenient.

• Go Transit/UP (UP) will expand its service network and will be able to better manage transit services, helping to reduce the need for new roads and North/South Corridor (GTHA) and Regional Road initiatives. This will help to ensure that the region’s infrastructure is supported as needed.

• Over the next 10 years, $500 billion will be spent to expand GO’s network, and to improve connectivity (e.g., through the expansion of the GO Transit North-South Corridor).
